CVEC to Host Electronic Town Hall Meeting

(Arrington, VA) Central Virginia Electric Cooperative President & CEO, Gary Wood, will update electric Cooperative member-owners regarding recent activities at CVEC through an electronic town hall meeting on Wednesday, October 22 at 7:00 p.m.

“While our member-owners are interested in our continuing efforts to provide reliable service at affordable rates, we understand that they lead busy lives with commitments at work and to their families so a quick online conversation after dinner allows the Co-op to stay in touch with members” said Gary Wood. “CVEC used the same Live Stream service to broadcast its Annual Meeting last June to hundreds of members unable to attend in person and was encourage by the response.”

Those wishing to participate may visit www.mycvec.com for a link to the website where they can create an account if they wish to ask questions or offer comments. The meeting will also be available at www.facebook.com/mycvec.

Headquartered in Lovington, Central Virginia Electric Cooperative is a member-owned electric-distribution utility serving nearly 35,000 meters in 14 counties across central Virginia. For more information, visit www.mycvec.com.
